Dec 2022 – Jan 2023:	Harvest season at Patrysvlei Farm (Clanwilliam, Western Cape)
Feb 2021 – Dec 2025	NWU degree for BSC I.T.

Personal Summary

I am from a small town in the Western Cape called Clanwilliam. Here I graduated from a joint agricultural and academic school where I served as deputy head son (onder-hoofseun) on the student council during my matric year. During my school career I did well in academic modules including physics and biology. I enjoy running, playing golf, bowls, video games, building computers and having a braai. I acquired a lot of my mentioned skills while studying at the NWU. I am currently taking a break from studying in order to pursue more gratifying endeavors and to earn a living before possibly returning to finish my degree in the future.
